Full Stack developer proficient in Ruby on Rails and JavaScript with a background in Business Administration. With a passion into tech world since childhood, I discovered Web Development through my role as an Inventory Manager. Always the desire to learn new stuff, I love the programming field a lot. My superpowers are strong communication skills, enjoy helping others and being a good listener.

TECHNICAL SKILLS

HTML5, CSS, Bootstrap, Bulma, OOP with JavaScript, jQuery, AJAX, XML / JSON, Axios, React.js, Redux, OOP with Ruby, Nokogiri, Sinatra, Ruby on Rails, ActiveRecord, SQLite, PostgreSQL.

TECHNICAL PROJECTS

[risto - React, Redux with Rails API](#)

Restaurant search application

- fetch() request to Zomato API through Rails API, to search for restaurants
- User can login and favorite a restaurant, which displays only when the user is logged in

[jsMoviesCollection - JavaScript and Rails Project](#)

Web application for movie collection and movie compare for people to decide which movies they will like more

- JavaScript for front-end, Rails for backend API, HTML and CSS with Bootstrap and Bulma for design is used
- Server is handled asynchronously with fetch(), from Rails and OMDB API
- User is able to create & delete movies of his favorite

[webdev - Rails Portfolio Project](#)

Web application for Developers to track the clients and their project orders

- Build by pure Ruby on Rails Framework, Front-End and Back-End
- ActiveRecord Validations, Query methods and Macros are used
- User signup, login/logout, login from some other service (GitHub) is maintained
- Neat DRY code, with separation of concerns, nested resource with the appropriate RESTful URLs

[sinatra_dentaloffice - Sinatra Portfolio Project](#)

Web application built for Dentists to keep track of their patients

- Built with MVC structure, DRY code, validations of user login attribute (username or email)
- User can create, update and delete his own patient information

EXPERIENCE

Regional Inventory Manager, **Q3LineLLC (now American Trade Group)**, San Diego, CA Apr / 2016 - Aug / 2019

- Helped the company to hire the most reliable employees who are good at sales.
- Managed the Just-in-time Inventory, eliminated storage cost.
- Reduced inventory stock on hand with centralized storage and on-time inventory orders.
- Increased speed to market by optimizing the supply chain.
- Saved money by negotiating with Vendors on their pricing strategy.

Logistics Manager, **CosmosSunglasses**, Chicago, IL Oct / 2014 - Jan / 2016

- Trained all new hires on how to execute sales
- Managed the Just-in-time Inventory, eliminated storage cost in Chicago area.
- Fulfilled warehouse orders in 2-3 days turnaround, 2 times a month, 94 stores.
- Worked within many different software systems, POS software.
